Arizona Consumers

Internet Safety Tips

“Prevention is the best way to stop criminals. By giving more Arizonans information about consumer fraud and resources available for help, more people will spot the red flags and protect themselves and their families.”

Internet Safety Tips

Many kids and teens don't realize that the types of websites they visit, the information they post about themselves, and the off-hand remarks they sometimes make can lead to trouble. Protecting children and teens from Internet predators and scam artists is a very serious issue. Parents, play it safe. Talk about Internet safety with your kids, and teach them a few simple rules:

- *They should never arrange a face-to-face meeting with someone they met online.*
- *They should never upload or post pictures of themselves onto the Internet, or online service, to people they do not personally know.*
- *Never give out identifying information such as their name, home address, school name, or telephone number.*
- *Never download pictures from an unknown source, as there is a good chance these can be sexually explicit images.*
- *Never respond to messages or bulletin board postings that are suggestive, obscene, belligerent, or harassing.*
- *And remember, whatever they see online, may or may not be true.*
- *For more information on Internet Safety and to get an official Arizona Internet Driver's License visit the Arizona Attorney General's Kids Page at www.azag.gov.*
